Professional Summary

Recent Computer Science and Engineering graduate from American International University-Bangladesh (AIUB), specializing in frontend web development with supporting exposure to Machine Learning, Data Science research, and IT systems. Proficient in HTML, CSS, Tailwind CSS, and JavaScript (ES6+), with practical experience building responsive user interfaces using React and developing proficiency in Next.js. Demonstrated project experience includes Hero Apps, Customer Support Ticket System, Plant Green Earth, and Bangladesh Emergency Hotline. Brings a well-rounded technical foundation across web development, ML/DS concepts, and IT fundamentals, along with strong problem-solving skills and a commitment to continuous learning, to a Junior Frontend Developer role.

Education

BSc in Computer Science and Engineering — American International University-Bangladesh	2022–2026
Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Web Application Development, AI & Machine Learning, Computer Networks, Software Engineering, Data Science, Data Mining	
HSC — Agricultural University College, Mymensingh (GPA 5.00)	2018–2020
SSC — Progressive ModelSchool, Mymensingh (GPA 4.94)	2017–2018

Technical Skills

Languages:	C, C++, Python, JavaScript, Java, C#
Web:	HTML, CSS, Tailwind CSS, React.js, React Router
Data/ML:	TensorFlow, Keras, Scikit-learn, Pandas, NumPy, CNN (ResNet-50, VGG-16) SQL, OOP, Data
DB & CS:	Structures & Algorithms, Basic Networking
Tools:	Git, GitHub, VS Code, Flask, AWS, Figma

Projects

projects	Technologies	Description
CareerHub – Job Finder Platform	React.js, JavaScript, Tailwind CSS, React Router, LocalStorage, Vite	A modern and responsive job search platform built with React.js and Tailwind CSS. Users can search, filter, save, and apply for jobs while managing applications through a personalized dashboard.
SpendWise – Personal Finance Tracker	HTML5, CSS3, JavaScript, LocalStorage, Font Awesome	A responsive personal finance management web application enabling users to track income, expenses, balance, and savings through an intuitive dashboard. Includes transaction management, financial data visualization, profile management, dark/light mode, transaction filtering, and CSV export functionality.
SkyCast – Weather Dashboard	HTML5, CSS3, JavaScript (ES6+), OpenWeatherMap API, Geolocation API, LocalStorage, Responsive Web Design	A premium and responsive weather dashboard integrated with the OpenWeatherMap API to provide real-time weather updates, 5-day forecasts, favorite cities, geolocation support, authentication, profile management, and a modern dark/light mode interface.
Earthquake Magnitude Prediction Using Machine Learning	Python, Pandas, NumPy, Scikit-learn, XGBoost	Developed a machine learning model to predict earthquake magnitude using seismic data; compared six ML models and achieved the best performance with XGBoost ($R^2 = 0.9262$).
Hotel & Restaurant Review Clustering	R, NLP, TF-IDF, Clustering	Sentiment-based clustering of large review datasets to surface recurring feedback themes.
Hero Apps	React.js, React Router, JavaScript (ES6+), Tailwind	Responsive App Store with live search, sorting, charts, and localStorage install/uninstall.
Customer Support Ticket System	React.js, JavaScript (ES6), React-Toastify, JSON	Responsive dashboard with real-time ticket tracking, notifications, and full lifecycle management.
Plant Green Earth	HTML, Tailwind/DaisyUI, JavaScript (ES6)	Responsive campaign web app with API-based data loading, filtering, modals, and cart system.
Bangladesh Emergency Hotline	HTML, Tailwind/DaisyUI, Vanilla JS	Responsive emergency hotline directory with interactive cards and real-time UI updates.
Rainy Day (City Simulation)	C/C++, OpenGL, GLUT, WinMM	Interactive OpenGL city simulation with dynamic weather, traffic control, and sound effects.

Publications & Certifications

Publication: "Development of anAutomatic DoorOpening System Using Arduino" — ResearchGate (2026). Design and implementation of an Arduino-based contactless door system integrating proximity sensing with servo actuation.

Certification: IT Essentials — Cisco (January 2022)

Additional Information

Extracurricular:GeneralMember,AIUB Photography Club (2023–2024); Volunteer, Tale of the Darkroom III (International Photography Exhibition)

Languages: Bangla (Native), English (Professional Working Proficiency)

SoftSkills: Communication, Teamwork, Problem-Solving, Time Management
